

Mahindra Treo Becomes India's first Lithium-ion 3-wheeler To Achieve 5,000 Units Sales Milestone

Treo range has travelled for 35 Million+ kms on Indian roads -- equivalent to travelling from the Earth to the Moon and back 45 times

Bengaluru, October 9, 2020: Mahindra Electric Mobility Ltd, part of the USD 19.4 billion Mahindra Group, today announced that its lithium-ion battery powered electric 3-wheeler range, the Mahindra Treo, has crossed the **5,000 units sales milestone in India**. The country's switch to EVs is being led by electric three-wheelers as they are economically, environmentally and socially sustainable.

Commenting on this significant milestone, **Mahesh Babu, MD & CEO, Mahindra Electric** said, "I would like to thank our customers for choosing and embracing e-mobility in the country. The Mahindra Treo range has crossed a remarkable **sales milestone of 5,000 units** and is currently being sold in over 400 districts across the country. Cumulatively, the Treo has travelled a distance of over **35 Million kms on Indian roads**, saving **1,925 metric tonnes of CO₂ tailpipe emissions**, equivalent to planting **87,500 trees** to absorb the same emissions. Given its low running costs, our Treo customer has been able to save up to **₹ 45,000/ year***. This electric 3-wheeler along with its unique styling, superior handling and top performance makes for a smart first and last mile mobility choice for both drivers and commuters."

Treo customers have been able to clock up to **265 kilometres in a single day** given the ease of charging it anywhere, and with some well-planned charging breaks. The **Drive by Wire Technology** on the Treo which makes it particularly easy to drive, has enabled access to a customer base of women owners in India.

The Treo range is powered by advanced Lithium-ion Battery Technology with a **life of 1.50 lakh+ kilometres**. The new Treo provides **best-in-segment performance** (maximum power of 8kW, peak torque of 42 Nm). It also has the **longest wheelbase in its segment** resulting in a very spacious cabin.

You can also climb slopes with ease given **the highest gradeability of 12.7° in the segment**. It comes with a standard warranty of 3 years/ 80,000 kms, along with the option of an Extended Warranty of 2 years/ 1,00,000 Kms.

About Mahindra Electric

Mahindra Electric, a part of the USD 19.4 billion Mahindra Group is a global pioneer in the development and production of electric vehicles. Mahindra Electric is India's only EV manufacturer with indigenously developed EV technologies that have won global accolades. Over the years, Mahindra Electric has developed one of the most diversified portfolio of electric vehicles with the e₂oPlus hatch, the Treo range of three-wheelers, the electrified eVerito sedan & the electrified eSupro mini-van for the passenger and the commercial segment. Venturing into the paradigm of alternative technology has helped Mahindra Electric enable a clean, green & a smarter tomorrow for India.
